

# 2015-2016 E-RATE APPLICATION INFORMATION

SCHOOL DISTRICT: \_\_\_\_\_

COMPLETED BY: \_\_\_\_\_

The School (District) has Internet access of ---	Check One
less than 100 Mbps per 1,000 users (students and staff)	<input type="checkbox"/>
at least 100 Mbps per 1,000 users but less than 1Gbps per 1,000 users	<input type="checkbox"/>
at least 1 Gbps per 1,000 users	<input type="checkbox"/>

How many school buildings have Wide Area Networking connections scalable to 10 Gbps? \_\_\_\_\_

How many school buildings have LAN/WLAN capacity and coverage that is ---

- Completely sufficient to support the educational activities conducted there.
- Mostly sufficient to support the educational activities conducted there.
- Sometimes sufficient to support the educational activities conducted there.
- Rarely sufficient to support the educational or library activities conducted there.
- Not sufficient to support the educational or library activities conducted there.

For schools that do not have sufficient LAN/WLAN capacity/coverage to support educational objectives or activities conducted at that location, is the reason (check all that apply):

- Equipment too costly
- Installation too costly
- Broadband connection speed to building is too slow
- Inadequate local area network (LAN) services/internal networks and wiring
- Outdated equipment
- Lack of training and technical support
- Inconsistent service/frequent outages and down time
- Physical structure or layout of building(s)
- Other: If so, please provide it here: \_\_\_\_\_
